Attn.: Assistant Secretary (B) 1

Dear Sir,

### CONSULTATION PAPER ON PROPOSED SPECTRUM POLICY FRAMEWORK

With reference to your consultation paper on the above subject, we would like to present our views/position as listed below for inclusion in the radio spectrum policy review.

- (1) The future frequency spectrum management/utilization should not affect any existing frequency spectrum in use by our radio systems which are necessary for effective power system operations and services.
- (2) The present licensing mechanism for our radio systems/equipment should be continued as:
  - a) such control has proved to be effective for so many years; and
  - b) the spectrum is not used for commercial purpose to generate revenue.

Should you have any queries, please contact me at telephone No.                      or  
our Mr. W.C. Lo at telephone No.

Yours sincerely,

B.K. Mak

CHIEF TECHNICAL SERVICES ENGINEER
