Subject Support Competition Law

Urgent Return receipt Sign Encrypt

Dear Governor,

I am totally support o have this Competition law in HK. HK is so small that few big players can CONTROL the market. They always "Abuse of a dominant market position" and exercise unfair practices to small players.

e.g., the oil companies fixed the high price together, retailers deducted suppliers' payment because of low margin, Fix pricing and pressure on suppliers to kick out other retailers joining the market (Carrefour).....

If we can have this law legislated, this will definitely help HK to have a FAIR TRADE economic envirnment than now.

Thanks for your consideration.

Regards,
Joshua Suen
