Subject Legislation to Enhance Protection for Consumers Against Unfair Trade Practices

Urgent Return receipt Sign Encrypt

Dear Sir / Madam,

I absolutely agree with the contents of the public consultation. However, I think that more manpower must be used to conduct inspections. If there are not enough inspections, the law will end up as useless because retailers will know that it is loosely enforced. Moreover, this will also create more employment opportunities. In order to maintain competitiveness as "Asia's World City", action must be taken.

Regards,

Mr. Chan
