Subject Public Consultation on Legislation to Enhance Protection for
Consumers Against Unfair Trade Practices Urgent Return receipt Sign Encrypt

Dear Sirs,

The Government should also impose mandatory cooling-off period on beauty service providers because this service sector is one of the business sectors receiving the most consumer complaints in Hong Kong. How come the Government can neglect this fact?

If the Government insist her own views and does not include the beauty service in the new arrangement of mandatory cooling-off period finally, it not only disappoints the public, the consultation this time is also useless.

Regards,

Bonnie
