---

Dear Sir/Madam,

Thank you for your Department's invitation for views of the Consumer Council on the Public Consultation on Proposed Subsidiary Legislation under the Copyright Ordinance.

The Council does not fall within the ambit of the proposed subsidiary legislation and is therefore not in a position to offer comments in detail. Having said that, we believe that with its objective of introducing a clear and up-to-date statutory framework for eligible parties to utilise the permitted acts concerned, the proposal will receive general support from the public. We trust that through this consultation exercise, views of stakeholders will be sufficiently canvassed to ensure a smooth implementation of the proposal.

Best regards,

Gilly WONG  
Chief Executive  
Consumer Council
