To whom it may concern,

I am writing to oppose the proposal on the practical guidance to online service providers (OSPs) for the following reasons:

1. HK is an international city, the creative industry in HK is an important fundamental for the GDP. The proposal that drafted by government may lower the investment incentive of the companies in the creative industry. The freedom of creative is an important factor for the creative industry, the such proposal is not mature and the definition of the guidance is very unclear at present.

2. According to the Universal Declaration of Human Rights article 19, everyone has the right to freedom of opinion and expression. The government's proposal is OBVIOUSLY offence against the following. This may damage the international image of HK.

**Article 19.**

- Everyone has the right to freedom of opinion and expression; this right includes freedom to hold opinions without interference and to seek, receive and impart information and ideas through any media and regardless of frontiers.

I sincerely hope that HK people, our next generation and even your children can enjoy the right of opinion and expression.

Yours faithfully,

Pinky Cheng
